

CleanBrands Platinum Encasing Mattress Pad

The new CleanBrands Platinum is a 6-sided fully encasing mattress pad with a waterproof quilted replaceable top for easy laundering. CleanBrands Platinum will replace up to 3 products currently used to protect your bedding: your mattress encasement, waterproof mattress protector, and your mattress pad. Along with improving your guests sleep experience, this product is designed to lower the cost of utility bedding by reducing the number of products you must inventory to satisfy the demands of bed bug protection, waterproofing, and additional comfort.
